

PlanetsWater

Pure Water from the Air

Become A Licensed Distributor Of PlanetsWater 'AWG' Products

A Thoroughly Refreshing Idea....

Help us 'spread the word around the globe' and be financially rewarded for doing so as you can 'profit' from atmospheric water generation AWG machine sales as both a 'lifestyle' alternative device to those of us that are fortunate enough to have a choice and a very much needed 'life saving' device to the ever increasing number of people worldwide that have little or no access at all to drinking water, which according to the world health organization [WHO] equates to more than one third of the planet's population.

It now seems that the sky is no longer the limit as there literally exists an 'untapped' opportunity in providing a safe, healthy and an amazingly affordable solution in the combating of the ever increasing global water shortage without depleting the planets 'aqua fir's' which is that of our future generations underground needed water source. Pure water from the air that we breathe through 'atmospheric water generation' AWG technology....

Start making money from Air now...

WATER - A source of LIFE!

Atmospheric Water Generators - Water from Air

Our technology extracts water from air and converts it to pure and fresh drinking water. Atmospheric Water Generators are essential for everyone wanting pure and clean drinking water in these times, without the threat of municipal contaminates, or transporting and storing expensive bottled water. Therefore eliminating plastic water bottle waste and the need for delivery of water bottles/containers, thus reducing the 'carbon footprint'. No water source on this planet is as pure or abundant as water from our own air. Atmospheric water generators simply and reliably deliver safe drinking water from the air we breathe.

To some it may appear like magic, however the technology is based on scientific processes that make water readily available in almost any environment.

How It All Makes Sense PlanetsWater AWG Features & Benefits...

Besides the unlimited earning potential **PlanetsWater Corp.** has also identified 10 benefits of the product relative to the criteria that the water industry and their customers use in their purchase decisions.

- **Saves Production Costs** due to its simple design, substantially smaller size and low pressure operation, allowing lower prices and higher margins;
- **Saves Fossil Fuels and Protects the Environment** as Plastic bottles used in bottled water production require massive amounts of fossil fuels to manufacture and transport. Billions of these bottles wind up in landfills every year;
- **Maintains Water Quality** at a given micron level, whereas water filters become increasingly less effective until they are cleaned;
- **Saves Water** by wasting 85% less water than DE or sand filters, and 66% less than cartridge filters;
- **Saves Electricity** by operating at 2-10 lbs/in² compared with the 40-80lbs/in² needed to force water through the other filters;
- **Saves Time** by eliminating the task of manual cleaning other filters;

Reduces Financial Risk by eliminating the uncertainty;

- **Reduces Health Risk** as it generates pure drinking water;
- **Saves Installation Costs** because it comes with a protective housing;

Our Home/Office AWG units save space due to their compact size.

Products available for both Home & Office proving your choice of being a licensed 'PlanetsWater Distributor' has endless possibilities....

How It All Works

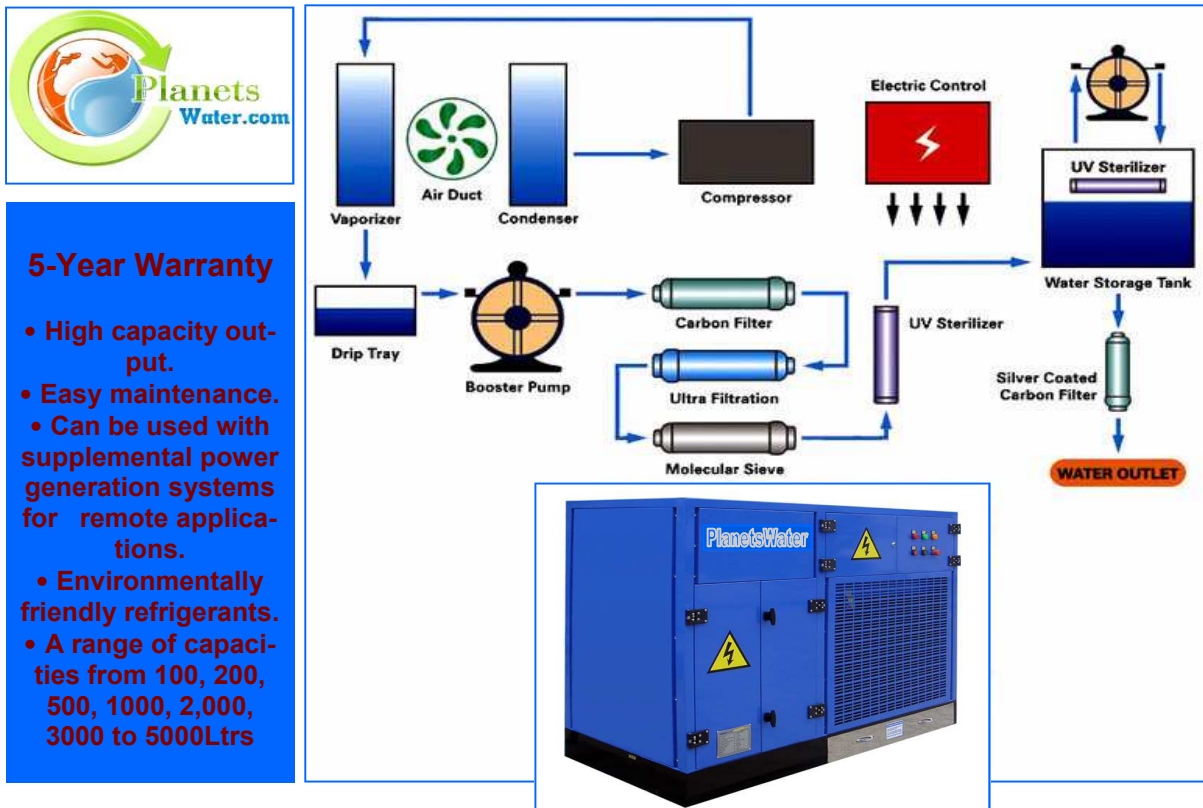

AWG-C-Series Commercial/Industrial

Atmospheric Water Generators - Water from Air

PlanetsWater™ can provide you with the solution to your water needs and in doing so will help reduce your 'carbon footprint' and achieve both an ecological & economical answer to the ever increasing water crisis;

Our industrial machines are available in two models, our robust **PlanetsWater™ 'Big Blue'** units range from **100, 200, 500, 1000, 3000 and 5000ltrs.**

The second being the newly introduced '**compact commercial 500, 1000, 2000 and 5000ltr.**' units offering savings in size, weight and price. We manufacture and distribute our AWG models worldwide, that offer the very latest technology being 'state-of-the-art' Atmospheric Water Generators that produce the purest, most natural drinking water available on the planet directly from humidity in the air we breathe

CLEAN WATER IS NOT ONLY IMPORTANT TO HUMANS. IT'S ALSO PART OF THE LARGER ECOSYSTEM.

'PLANETSWATER' strive not only to make pristine, healthy water accessible and affordable to everybody throughout the globe, we also aim and strive to make it sustainable. Therefore the 'most self-sufficient' we make achieving pure clean water, the more sustainable it can be. To that end, we are making it our mission to not only provide the perfect renewable water solution, but also ensure each family's need in providing the power required to make that water as safe as to create the perfect solution to all our water needs whether that need may be in a dependable remote location or as part of an environmentally friendly 'green energy' or an alternative power source regardless of location. - PLANETS WATER

Along with our pioneering advances in Atmospheric Water Generation (AWG) we have also invested both time and money in the processes that make it possible. Success.
