

## Another Thoroughly Refreshing Idea – FREE Distributorships

At present we are in negotiations with a number of like minded individuals and groups throughout most parts of the world such is the interest generated from our website and associated products and services.

We therefore stress that the parties that are quickest to respond to our unique introductory offers and 'free distributorship licenses' will be those that benefit most as time goes on with regards securing a distributorship license as areas/regions are being secured fast.

### No Distributorship License FEE....

The general cost of a '**distributorship**' within the '**atmospheric water generator**' industry is around Fifty Thousand Euros (50,000 Euros) which will guarantee the **rights to market and sell our products** within a given '**territory**' otherwise deemed as country/state. However, please read on as having duly considered the current economic climate and given the fact that we are striving to achieve our goals and vision of creating awareness worldwide and providing the  **freshest, purest drinking water** available on the planet to all persons worldwide sooner rather than later, we have therefore decided to '**waiver**' the current **distribution fees** in the hope that the more people or organizations that we encourage to become a part of our **worldwide distribution network** the better for all concerned. In the past with an accepted 'distributorship' through 'PlanetsWater' the 'distributorship' fee charged is fully refundable by us following an accepted minimum order quantity usually dependant on the region.

**NOW a 'distributorship' license with us is totally FREE from the start.....!!**

After all, your success is our success.

Furthermore once the 'distributorship' has been approved and accepted through 'Planets Water' we will provide the distributor with all the support via our website and applied marketing to get you started including lead generation together with guidance with your own corporate identity and marketing.

A 'distributorship' can be created and fully affiliated within just 30-40 days anywhere on the planet according to availability.

There are other alternative products available, however, we have the main worldwide distributorship and remain at the forefront of this remarkable product in terms of our marketing, unit cost and availability through our intensive research, manufacturing and production.

The PWG-1 (latest version of AWG-1) home/office water generation machine generates up to 30 liters of pure drinking water per day depending on the specific atmospheric conditions of a particular geographic region. The PWG-1 has been proven to work effectively worldwide.

The PWG-1 simply replaces the need to rely on municipal water systems, transport, storage and consumption of bottled water. The PWG-1 is the first major innovative home/office appliance since the microwave oven and will soon become as popular. This miracle water making machine can reliably manufacture pure fresh drinking water from thin air daily.

The Planet's Water PWG-1 is our solution for an ever increasing demand to supply clean pure drinking water worldwide.

Product brochure and specifications are available on our website [www.planetswater.com](http://www.planetswater.com)

We manufacture and distribute our 'air to water' appliances worldwide.

**Please find the 'attached' distributor's price list for both domestic/commercial units ranging from 30 litres - 5,000 litres of water per day. Larger quantity unit prices are available on request.**

In addition please find the following on our home/office PWG-1 appliance;

**Introductory Offer:**

**Single Unit Order Just 1,250 USD (including delivery).**

**Opportunities for Sales and Distributors**

Distributors Wanted! Start making money from thin air now ...!!!

**Distributorship's are available worldwide.**

Distributors minimum order as follows;

You can purchase your environmentally friendly units in multiples of **129 per twenty foot container** or **269 per forty foot container**, at a remarkably low cost per unit of just **790 USD** (plus shipping).

The PWG-1 atmospheric water generator home/office appliance **recommended retail price (R.R.P.) is.....1,690 USD = over 100% PROFIT!** (gross profit margin for distributors!!)

(Note: exchange rates fluctuate daily)

**Experience shows us that once installed in homes or offices anywhere worldwide that one unit will sell on average five more units.**

Please contact us again with your comments and your order of a 'sample' unit for the special introductory price of **1,250 USD (including delivery)** which will be **reimbursed in full** following acceptance of a 'distributorship license' (i.e. a container order **129/269 units @790 USD per unit**).

The **minimum order** unit quantity of ANY distributorship worldwide is **540 units** equal to **two forty foot (2x40')** containers within **twelve (12)** months of signing.

**Our product can help benefit every human being on the planet - so let's start making a difference NOW!**

**Water - A source of LIFE!**
