

'PLANETSWATER' Atmospheric Drinking Water Generators 'Price List' 2010/11

NEW RANGE OF HOME/OFFICE APPLIANCES INCLUDING 'NEW' COUNTERTOP UNITS THAT CAN DELIVER THE SAME AMOUNT OF 'PURE WATER' DAILY FOR A LOWER PRICE... HIGHEST QUALITY & QUANTITY AT LOW, LOW PRICES!

PWG-20L

Details:

- * Production capacity: 20L/24hr
- Condition: T: 15-32 \pm RH: 40-95%
- * Power supply: 220V/50Hz, 110V/60Hz
- * Rated input (generation water): 220V/350W; 110V/400W
- * Heating capacity: 5L/H
- * Rated input (heating): 500W
- * Cooling capacity: 2L/H
- * Rated input(cooling): 80W (when made with two compressors)
- * Packing size: 410x380x1170mm

* QTY:(20'/40') 168/332 units \$600 cost per unit.

PWG-M20L (COUNTER TOP UNIT)

Details:

- * No cold or hot water
- * Production capacity: 20L/24hr
- Condition: T: 15-32 \pm RH: 40-95%
- * Power supply: 220V/50Hz, 110V/60Hz
- * Rated input (generation water): 220V/350W; 110V/400W
- * With VFD display, Computer control.
- * Cooling capacity: 2L/H (when made with two compressors)
- * Filter system: PPF+CTO+RO+T33+UV or PPF+CTO+UF+T33+UV
- * Packing size: 380x410x620mm

* QTY:(20'/40') 252/522 units \$620 cost per unit.

PWG-30L

Details:

- * Production capacity: 30L/24hr
- * Power Supply: AC 220V~240V/50Hz/60Hz
- * Rated input (Producing Water): 500W
- * Rated input (Heating): 450W
- * Rated input (Cooling): 60W
- * Standard Producing Water capacity: 30L/24Hr
- * Heating Capacity: 9L/Hr
- * Hot water temperature: 93 $^{\circ}$ C
- * Cooling capacity: 2L/H
- * Cold water temperature: < 10 $^{\circ}$ C
- * Type of electricity -shock –proof: I
- * Standard working condition: Humidity: 75 %; Temperature: 27 $^{\circ}$ C
- * Normal operating environment: Humidity: 35%-95%; Temperature: 15 $^{\circ}$ C -38 $^{\circ}$ C
- * Filter system: PP+CTO+UF+T33
- * Net size: 400x410x1103mm
- * Packing Size: 460x470x1172mm

* QTY:(20'/40') 110/255 units **\$640 cost per unit.**

PWG-50L

Details:

- * Name: Stainless steel public water generator
- * Production capacity: 50L/24hr
- * Condition: T:15~32 $^{\circ}$ C RH: 40~95%
- * Power supply: 220V/50HZ, 110V/60HZ
- * Rated input (water generation): 850W
- * Cooling capacity: 2L/H
- * Rated input (cooling): 80W (when made with two compressors)
- * Filter system: PP+CTO+UF+T33
- * Packing size: 380x390x1140mm

* QTY:(40') 360 units **\$1,490 cost per unit.**

PWG-138L

Details:

- * Production capacity: 138L/day (25 $^{\circ}$ C/80% HR)
- * Input power: 2KW
- * Power: 220V/50HZ
- * Wind volume: 1300m 2 /h
- * Obstruction of the wind: <180pa
- * Refrigeration: R22/ volume: 7 KG
- * This machine should be connected with the POU drinker..
Then heating & cooling the water if needed.
- * Size: 420x480x1050mm

* QTY:(40') 302 units **\$2,390 cost per unit.**

'PLANETSWATER' Price List 2010/11 Cont'd.

NEW 'SLEEK' DESIGN COMMERCIAL/INDUSTRIAL 'AWG' UNITS THAT CAN DELIVER THE SAME AMOUNT OF 'PURE WATER' DAILY FOR A FRACTION OF THE PRICE...
HIGHEST QUALITY & QUANTITY AT LOW PRICES!!

PWG-500L \$8,990 cost per unit. PWG-1,000L \$12,990 cost per unit. PWG-3,000L/5,000L \$POA

Details:

- * Production capacity: 500L/day (25°C/80% HR)
- * Input power: 10KW
- * Power: 380~220V/50HZ
- * Wind volume: 5600m²/h
- * Obstruction of the wind: <180pa
- * Refrigeration: R22/volume: 8.5 KG
- * Size: 450x1240x1750mm

*Larger size industrial/commercial 'AWG' machines delivering 3,000 – 5,000ltrs of pure water per day are available on request.
